Once the transfer is completed, the issued hardware will be removed from the records of the respective C-DAC officials.

As proposed above, the material has already been procured under the WBL Project by our Centre due to delays in onboarding CDAC Pune. Since the material is intended for CDAC Pune WBL activities, it can be transferred to CDAC Pune, and the store entry will be updated accordingly on receipt of store entry from C_DAC Pune. It is also recommended to use the India Post services for this purpose.
